

LUBEGARD® Premium 2 CYCLE Engine Oil with LXE® Technology

LUBEGARD® 2 CYCLE Engine Oil is a high performance 2-cycle oil designed as a high temperature lubricant to reduce friction, heat and wear and it also minimizes carbon deposits and contains a no-ash oil formula that reduces spark plug fouling.

LUBEGARD 2 CYCLE Engine Oil allows for longer spark plug life and prevents pre-ignition problems. It helps prevent rust, wear, corrosion, exhaust port plugging, ring sticking and other oil and fuel deposits.

LUBEGARD® Wire Rope Products with LXE® Technology

LUBEGARD Wire Rope Lubricants are patented, aquatically non-toxic & biodegradable. They contain a unique blend of corrosion inhibitors, thickeners and wear reducers. Both are ideal for all types of wire ropes and chains in a variety of services and environments.

46LD, Film forming to minimize the need for manual application
This low drying formulation is ideal for continuous applicators!

Our Part No. LUBE22 (5 US Gallon)

LUBEGARD® Power Steering Fluid with LXE® Technology

LUBEGARD® POWER STEERING FLUID is specifically formulated for power steering systems and is useful in hot and cold weather environments. Top quality base oils plus a full complement of performance additives provide excellent viscosity characteristics, shear stability, rust and corrosion protection, seal integrity, and detergency; while the proprietary LXE® (liquid wax ester) derivatives provide the extra friction and wear protection, oxidation stability, and heat rejection. The flash point of LUBEGARD® is equal to that of motor oils (above 475°F) and higher than that of ATF fluids.

Transmax Dex III Multivehicle Automatic Transmission Fluid

Castrol Transmax Dex III Multivehicle is designed for use in GM automatic transmissions pre 2005 and Ford automatic transmissions built between 1983 and 1996 where Dexron® (II or III) or Mercon are required. This product is approved for use in Allison heavy duty transmissions against TES 389. It is also approved for use in a wide range of european heavy duty automatic transmissions. It may be used in some power steering units. NB: Do not use where MERCON® V, MERCON® SP or DEXRON® VI is required.

Castrol Transmax Z Automatic Transmission Fluid

Castrol Transmax Z is a high quality full synthetic transmission fluid. It is particularly recommended for use in automatic and semi automatic transmissions used in buses and coaches. It may also be used in manual transmissions. As such it is recommended for fleets employing a mixture of Voith, Renk, ZF, Allison and MB transmissions alongside the Leyland Pneumocyclic and Hydracyclic units. Extended oil drain [120.000 km] in ZF Ecomat, MB AT and Voith AT

Castrol Formula SLX 0W-30 Engine Oil

Castrol Formula SLX LongTec is a fully synthetic 0W-30 engine oil suitable for vehicles on fixed servicing. For use in Audi, BMW, Mercedes Benz, Vauxhall and Volkswagen engines. Product Features

- Outstanding performance reserve
- Free flowing qualities and exceptionally low frictional characteristics
- Specially developed to provide premium performance
- Specially developed to provide premium performance
- Low Phosphorous content
- Synthetic viscosity reduces operating temperature

Castrol Magnatec 5W-40 C3 Engine Oil

Choose Castrol Magnatec 5W-40 C3 and its intelligent molecules will protect your car's engine during the critical warm up stage when up to 75% of engine wear occurs.

- Uses fully synthetic technology
- Provides protection during the critical warm-up period and beyond.
- Bonds to metal surfaces making engine parts more resistant to wear.
- Provides superior performance under extreme cold start up conditions.

Castrol Universal 75w-90 Semi Synthetic Car Gearbox Oil

Castrol Universal 75W/90 is a part synthetic multigrade gear oil which employs advanced technology additives to ensure extra protection at extreme low and high operating temperatures. Tested and proven, this SAE 75W/90 multigrade gear oil is synchromesh compatible and designed with a low chlorine formulation to allow environmentally responsible disposal of used oil.

20 Litre Cannister, Our Part No. OIL.43

AISIN Premium ATF 6 [Click for Data Sheet](#)

For older to more modern automatic transmissions with 3-, 4-, 5- and 6-speed automatic transmissions:

- Premium synthetic, long-life, multi-purpose AT fluid;
- Suitable for older to more modern, electronically-controlled automatic transmissions containing 3, 4, 5 or 6 gear ratios
- Recommended for more than 5,000 automatic car makes and models in the European market, including Toyota and Lexus models with Aisin AT systems requiring T4-type fluid, and many leading makes (Audi, BMW, Chrysler, Fiat, Ford, Honda, Hyundai, Mazda, Mercedes-Benz, Mitsubishi, Mini, Nissan, Opel, Porsche, VW and Volvo).

722.6 + 722.9 ATF-134 (RED) Transmission Fluid (OE)

This fluid is designed for use in the 722.6 and early generation 722.9 (7 G-Tronic), transmissions which not require a very low viscosity ATF.

The red and the blue fluids are not compatible with each other and cannot be mixed, it can be seen what type of fluid is intended for the transmission by looking at the pan. If you have round dimples in the pan - red. If you have oval dimples in the pan - blue.

1 Litre Bottle, Our Part No. OIL.600
5 Litre Cannister, Our Part No. OIL.601

722.9, ATF 134FE (BLUE) Low Friction Transmission Fluid (OE)

This fluid is designed for use in the new generation low friction transmissions (7 G-Tronic Plus), which have modified running gear producing less friction and requiring a very low viscosity ATF.

The red and the blue fluids are not compatible with each other and cannot be mixed, it can be seen what type of fluid is intended for the transmission by looking at the pan. If you have round dimples in the pan - red. If you have oval dimples in the pan - blue.
